

HAWK WARGAMES

NEWSLETTER # 16, 15/03/2013

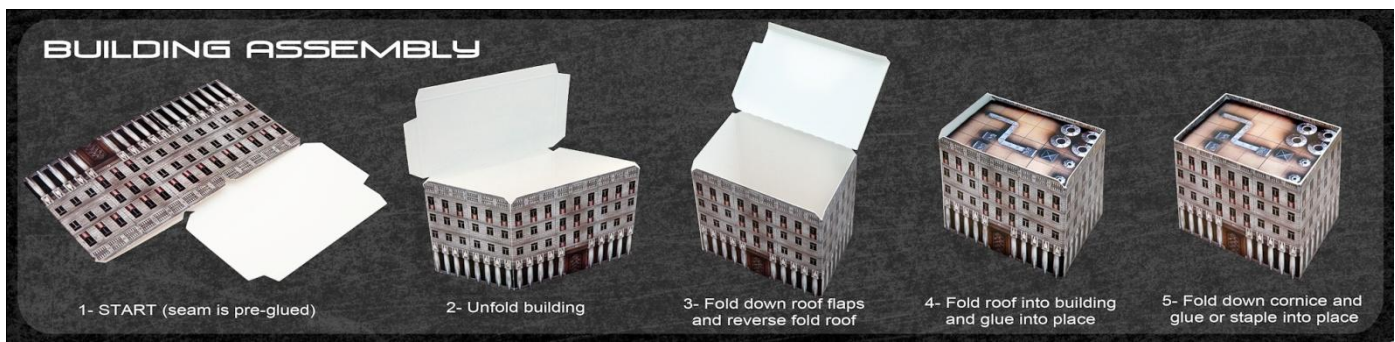

We have a great new product to announce today!

1) Cityscape!

Hawk Wargames is pleased to announce **Cityscape**, a complete and customisable card battlefield set! This product contains all the scenery you need for large games of Dropzone Commander, can be configured flexibly up to 6'x4' size and offers fantastic value!

Cityscape contains 20 different card buildings in 5 different sizes. Each building is pre-cut, pre-folded and comes with a pre-glued seam. All you need to do is unfold the building, glue or staple the roof down and you're good to go! The buildings are printed on solid 615 micron card stock in vibrant colours with a coated finish.

Cityscape also contains 24 1'x1' double sided card ground tiles. These are fully detailed with roads, green spaces, car parks and tunnels and can be configured in thousands of combinations! These can be glued or taped to a solid gaming surface to complete an immersive 4'x4' or a 6'x4' table.

With this fantastic product you can build an urban gaming board for Dropzone Commander in minutes. Best of all, Cityscape will be available at an RRP of just £30 (\$45 in US stores)!

The Cityscape set will go online for pre-order from April 5th and will be available in stores worldwide from April 20th. If you're attending either Adepticon or Salute! 2013 you'll be able to grab a box on launch day!

Cityscape is fully cross-compatible with all our other scenery products. Buildings can be augmented with highly detailed resin parts or expanded with our free to download self-print scenery.

2) Dropzone Commander Tournament Pack

Cityscape is perfect for tournament organisers, since it makes it possible to build multiple boards extremely quickly at a highly affordable price!

In anticipation of this, we're working on a free to download PDF Tournament Pack as a complete guide to running a Dropzone Commander tournament or gaming day. This will be available to download before the release date of Cityscape.

Stay tuned for more in the next newsletter,
