NAND GATEWAY

Instead of making a Moving action, this squad may immediately go into Holding. Any held objectives are dropped before this squad is put into holding.

WARBAND

At the start of the game, before deployment, this unit may join any other squad of Shaltari Infantry. For all purposes it is treated as part of their squad and battlegroup, taking on their category too (although a Commander may still be mounted in it due to the Command Centre special rule).

WARSUIT

This unit's Active Countermeasures only take effect against weapons of E6 or less. In addition, re-roll successful Collateral Damage hits against this unit.

WEB PROJECTOR

When this weapon deals damage, instead of causing damage you may place the target squad in coherency outside the Garrison within 2" of a wall.

EJECT!

If this unit is destroyed, roll a 4 dice. Place the Command Module within that many inches, no higher than 8" above ground level. The Command Module is best represented by the turret top of the Lynx or a small token. If there was a Commander in this unit, it survives in the Command Module. The Command Module is counted as the same Battlegroup as this unit.
