NAND GATEWAY

Instead of making a Moving action, this squad may immediately go into Holding. Any held objectives are dropped before this squad is put into holding.

WARBAND

At the start of the game, before deployment, this unit may join any other squad of Shaltari Infantry. For all purposes it is treated as part of their squad and battlegroup, taking on their category too (although a Commander may still be mounted in it due to the Command Centre special rule).

WARSUIT

This unit's Active Countermeasures only take effect against weapons of E6 or less. In addition, re-roll successful Collateral Damage hits against this unit.

WEB PROJECTOR

When this weapon deals damage, instead of causing damage you may place the target squad in coherency outside the Garrison within 2" of a wall.

CLAIRVOYANCE

When drawing Command Cards, draw one extra to your highest CV and discard 1 of your choice from your hand.

EJECT!

If this unit is destroyed, roll a 4 dice. Place the Command Module within that many inches, no higher than 8" above ground level. The Command Module is best represented by the turret top of the Lynx or a small token. If there was a Commander in this unit, it survives in the Command Module. The Command Module is counted as the same Battlegroup as this unit.

TELEPORT BEAMER

This unit can choose to target friendly or enemy units, but not units in the same squad. Scenery pieces and Behemoths cannot be targeted.

If this weapon hits, it does no damage, but every unit in the targeted unit's squad in coherency must teleport.

Move **friendly** units up to 6" per hit, or **enemy** units up to 3" per hit. This does not count as moving for the purposes of Move & Fire.

The units must be placed in coherency, although may be placed facing any direction, and ignore all scenery in the path of the move (although must be able to be placed on Passable terrain). It's easiest to roll all hits first, and then teleport the squad a total distance in one go.

Remember: always ask your opponent to move their own miniatures!
